

Project #18 – Ozark Aquifer Modeling

Location: Ozark Aquifer Region/Southeast Kansas

Agency: KWO

Description: Continue contract with the U.S. Geological Survey to complete a hydrologic computer model of the Ozark Aquifer in SE Kansas, SW Missouri and NE Oklahoma. Development in the Tri-State region has resulted in water level declines in some public water supply wells in Kansas. Federal funding is being sought for this project for the USGS and is currently included in the U.S. Senate version of the FFY06 Interior and Environment Appropriations Bill.
