

## **Nathan Westrup**

Nathan is a Water Resource Planner whose primary responsibilities are related to river and federal reservoir management in Eastern Kansas, both real-time operations and future planning. He serves as the Kansas Water Office point of contact for any and all reservoir operations, especially during drought.

Nathan is a graduate of the University of Kansas with a Bachelor's degree in Environmental Studies and Geology. Previous career experience includes time as a Field Geologist for the Big Bend Groundwater Management District #5, as an Environmental Scientist with the KDA - Division of Water Resources, as an Environmental Geologist with KDHE - Bureau of Environmental Remediation, and as an Assistant Water Commissioner, KDA- Division of Water Resources.
