

## **Tina Rajala**

Tina joined the Kansas Water Office in 1984, and currently serves as a Water Resource Planner in Hydrology and Evaluation. Her primary responsibilities are technical assistance for public water suppliers; mapping and GIS data management; and representing the Office on the Kansas GIS Policy Board's Technical Advisory Committee.

Tina previously worked at the Kansas Department of Health and Environment, as a research analyst in the Division of Health Office of Vital Statistics.

She received her undergraduate and graduate degrees from the University of Kansas in Lawrence, Kansas.
